“It’s official: apocalyptic climate predictions finally came true. Catastrophic wildfires, relentless hurricanes, melting permafrost, and coastal flooding have given us a taste of what some communities have already been living with for far too long. Yet, we don’t often hear the voices of the people most affected. Journalist Devi Lockwood set out to change that.

In *1,001 Voices on Climate Change*, Lockwood travels the world, often by bicycle, collecting first-person accounts of climate change. She frequently carried with her a simple cardboard sign reading, ““Tell me a story about climate change.””

*Due to capacity limitations in the park's theatre, those interested in attending are encouraged to arrive as early as possible prior to the advertised start time to ensure a seat.*
